

# Unlimited internet plus tech support that travels.

## Roam. Surf. Flick switch to get help.

The 4G Support Beacon from theRVITguy.com is your ticket to travel without sacrificing connectivity. If you're tired of relying on spotty WiFi, or daily access fees that add up fast, give one of these puppies a try.

- Unlimited internet at speeds up to 10Mbps
- VPN-encryption for secure, anonymous browsing
- Includes tech support for all connected devices
- No commitment, no contracts, cancel anytime

**No overages or hidden fees, just \$99/mo**

Order online at [www.theRVITguy.com](http://www.theRVITguy.com) or call (414) 399-1687

## Frequently Asked Questions

### **Is my high-speed data truly unlimited? Really?!**

Yes! Really! You get unlimited data at speeds up to 10 Mbps for one fixed price every month. There are no caps or throttle points that slow your speeds automatically once you've consumed a pre-determined amount of data.

### **How fast is 10 Mbps?**

Its enough bandwidth to support the moderate internet usage of 2-4 people. For reference, streaming music uses about 0.5 Mbps, streaming DVD-quality video uses 1-2 Mbps, and online gaming uses about 3-5 Mbps. Gaming also requires low latency ping times under 150ms, which our beacons are capable of in strong signal areas.

### **How does it work? Where will I have coverage?**

Our internet service is transmitted on the nation's fastest, most advanced LTE network. In addition to coverage in the US, our plans also include 5GB in Canada and Mexico each billing period. That said, with all carriers, signal strength and coverage will vary by location. Want to know about a specific location? Call or visit our website and we can check it out before you order.

### **Is the connection safe and secure?**

All of our beacons come preconfigured to encrypt your internet traffic, keeping you secure and anonymous online. When you need help, our support techs use this encrypted tunnel to access your beacon and troubleshoot your connected devices from afar.

### **What is the included tech support all about?**

Our business started purely as a tech support service. We added unlimited internet connectivity to our beacons, but we still pride ourselves on helping our customers with all their technology issues. Computers, tablets, phones, gaming consoles, streaming device... if it connects to the beacon we can help troubleshoot it at no extra charge. :o)

### **What sort of equipment do I need to buy?**

Nothing. Your monthly subscription fee includes leasing of our pre-configured beacon. Just plug it in and go. For extended range, try pairing our equipment with a cell signal booster from wilsonamplifiers.com!

### **What are ALL the costs associated with my service?**

We charge a one-time \$75 setup fee that covers activation of your data plan, configuration of your equipment, and shipping within the US. Monthly service is just \$99/mo plus tax, with no overage charges or hidden fees.

### **Do I have to sign a contract or pay cancellation fees?**

Nope, all our services are pre-paid and billed monthly. To cancel, just call us and we'll send you a pre-paid shipping label to return your equipment.

### **I want to know more!**

We're here to answer any questions you have. Visit [www.theRVITguy.com](http://www.theRVITguy.com), email [sales@theRVITguy.com](mailto:sales@theRVITguy.com), or pick up the phone and call us at (414) 399-1687.
